

**IN THE SPECIFICATION:**

*Please replace the second full paragraph of specification page 14 with the following replacement paragraph:*

FIG. 9 depicts a flowchart of a process 270 for limiting the number of responses collected and/or reported for a submitted question. As shown, after a user submits 272 a question, the process 270 presents questions submitted by others. Each response 274 to a question submitted by another increments 276 the number of responses collected and/or reported for the user's submitted question.
